

Florida's Harborside Hometown

INFORMATION SHARING REPORT March 11, 2019

Welcome

Sierra Moen started her position as Outreach Associate Intern with the Charlotte Harbor National Estuary Program division.

Community Outreach

Vice-Mayor Lynne Matthews and Council Member Debby Carey took part in Dr. Seuss Reading Day. Council Member Matthews shared the following thoughts in her newsletter, "One of my very favorite things that I get to do each year as a Council member is to be able to read to the kids on Dr. Seuss Day. That happened this week, and the kids did not disappoint. They are so much fun to hang out with, and I think I love it even more than they do. They were fighting to get to sit next to me for a photo op! Thanks to Dr. Lori Carr at East Elementary School for giving me the opportunity. P.S. Getting back up off the floor was the hard part!"

The Utilities Department hosted the fifth Citizens Academy session at its Cooper Street campus. After a description of Department functions and the role of various Department divisions by Director Tom Jackson, participants were given a tour of the water treatment plant and a sneak peek at the "Reverse Osmosis Plant".
