

Florida's Harborside Hometown

## INFORMATION SHARING REPORT

March 25, 2019

### Welcome

Andrea Godwin has started as a Waste Water Treatment Plant Operator C in the Utilities Department.

### Special Event

As part of the Pedal and Play bicycle event this past weekend, City Manager Howard Kunik led 125 riders with a tour of projects around the City to include new murals along the Harborwalk, Military Heritage Museum, Punta Gorda Library and multi-family development at Taylor/East Ann. In addition, the riders learned about charitable giving at the Charlotte Community Foundation. Kudos to the Police and Fire Department personnel for assistance in route management.

### Community Outreach

Urban Design hosted the second March session of the Citizens' Academy at City Hall in City Council Chambers. The two-hour session covered a variety of topics related to building and zone & code compliance within the City. This session was part of an eight-week program designed to provide an interactive forum where one can learn first-hand how the local government is structured, managed, and operated. The Academy format includes in-depth departmental presentations and on-site tours.
