

Florida's Harborside Hometown

## INFORMATION SHARING REPORT

April 29, 2019

### Good News

Public Works and Finance had a pizza party to celebrate the receipt of our first two FEMA reimbursement checks for seawall recovery. The State has complimented the City on the quality of the documentation provided. City staffs' hard work is greatly appreciated.

Mayor Nancy Prafke and the City Manager welcomed attendees at the Old Timers Luncheon. This annual event brings people, that have lived in Charlotte County for a long time, together to enjoy conversation and a meal before the Block Party. Council Member Jaha Cummings was also in attendance.

Public Works received positive feedback about Hounds on Henry, *"I am a Snowbird from Vermont. This is our second winter in Punta Gorda but our first with a one-year-old dog. We had not used any dog parks in our hometown. Initially the number of small dogs was overwhelming but we learned there were quieter times a day. The experience was so positive for us meeting people and wonderful dogs. I have to commend you on what a great job you have done in creating the Hounds of Henry St. The comfort you offer with sidewalk, shade, seating, water and pool makes the whole experience tremendous. It is accessible for young and old owners and their dogs. Our Hometown in So. Burlington Vermont is going to be building a new dog park and I will certainly share some of the great forethought that you put into your project."*
