

Our new and improved website is coming very soon! The City is planning on “going live” with the new website on Wednesday, June 10. Here are some tips to help you stay connected with us:

- When the change-over occurs, there will be Domain Name changes to some of our pages. These changes happen over the Internet and can take from 3 hours to 3 days to replicate. If you can't immediately connect to a page within 24 hours, please email the Webmaster at webmaster@ci.punta-gorda.fl.us. You can also find the Webmaster link at the very bottom of the new home page.
- It will take approximately 3 days for the Search engine link on the home page to find the new website pages. Please be patient as these changes take place over the Internet.
- Although the City's Website address (www.ci.punta-gorda.fl.us) will remain the same, your shortcuts and favorites to the City's website may no longer work. You may have to delete your current shortcuts and/or favorites and create new ones
- If you have any comments or questions, please feel free to email the Webmaster at webmaster@ci.punta-gorda.fl.us. You will also find the Webmaster link at the very bottom of the new home page.
- We hope you enjoy the new website. It was designed by a volunteer resident committee, along with staff members, who researched award-winning government websites around the country to come up with the new format. As with any new application, please be patient as we continue to add updated information to the site and work out any kinks along the way!
