

WWW.CCGIS.COM

1. If you are already familiar with the steps to view the seawall assessments layer simply click on the link above to enter the Charlotte County GIS page.
2. If you are unfamiliar with the steps required to view the seawall assessments on the county GIS page please follow the instructions below.
3. Click on the link above to enter the county GIS website.
4. Click on “Enter mapping Site” on the left section of the screen.

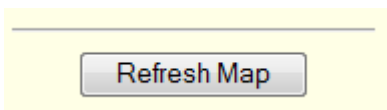

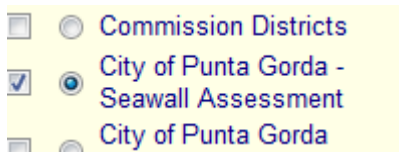

5. Click ok – (Disclaimer page)
6. (Click the magnify glass with + in left column to zoom into area). Hold your mouse button down and draw a box area that you would like to view. You will need to zoom in enough so that lot numbers appear.

7. Go to Layers –on the right side of the screen and check the square and circle for the layer “City of Punta Gorda – Seawall Assessment” to activate layer and click on Refresh Map button at the bottom of that column.

8. Depending on your individual computer, the seawalls should appear in color shortly. (see below)

- Click on the black **i** in the left column and then click on a color portion of the wall.

- Doing this will show a box at the top of the page indicating the status of the cap & wall similar to the box shown below.
